SUBJECT: WASHINGTON REQUEST FOR SUMMARY OF EXTERNAL SERVICES! THEMES

TO : FBIS

STAT

As I told you today, I have discussed the request from Vashington on this subject with _______ You will understand that the output in our STAT External Services is not controlled by precise directives from Government departments or elsewhere, and the greater part of the commentaries are of a highly topical character, the nature of which are determined by the flow of events from day to day, creating daily needs which vary between the different services. There is no summary of the commentary topics available, nor indeed are they colleted in any way which would make it possible to provide you readily with the information required, and I know you are not seeking any special procedure to be created for this purpose. To provide you with the complete scripts of the broadcasts of the External Services would, I am sure you will agree, be burdensome to you to an impossible degree.
